

IIM LUCKNOW

Post Graduate Programme in Sustainable Management

PLACEMENT BROCHURE 2024-26

PGP-SM at a Glance

IIM Lucknow takes pride in being the front-runner amongst the IIMs to introduce a programme that inculcates the essence of sustainability in conventional business education. PGP Sustainable Management is a two-year full-time post-graduate programme offered at the Noida campus.

The programme is designed to help managers develop a holistic perspective and

imbibe the ethos of socio-environmental responsibilities. Also, to equip them with the skills to assess and preserve all stakeholders' interests in a dynamic and unpredictable environment.

In addition to conventional business dimensions of finance, marketing, operations and human resource management, the programme focuses on:

A minimum of
2 years
of work experience
is a prerequisite for
selection into the
programme.

The criterion ensures that the candidates are pre-equipped with deep understanding of the corporate world and possess strong business acumen to better appreciate the rationale of business enterprises and the nuances of the complex environment in which it operates.

Analysis of
policy and

governance

Director's Message

I proudly present the students of PGP-SM and cordially welcome you to take part in our placement process and jointly contribute to building sustainable societies.

We are presently at a juncture in human history when our businesses can not be successful without roping in the crucial facets of sustainability within its strategy. Amalgamating such a strategy with the aspiration to maintain economic, social, and environmental synergy is one of the most crucial goals of modern leaders. This evolving paradigm brings into foray a new challenge in front of the leaders, finding individuals with the right level of empathy, intent, knowledge, skill, and experience to work for achieving the evolved ambition of their businesses.

To cater to this ever-growing need of the businesses, IIM Lucknow, with its vision of providing socially conscious and globally relevant thought leadership, became a pioneer in introducing a dedicated two-year full-time Post Graduate Programme in Sustainable Management (PGP-SM) from its Noida campus. I proudly present the students of PGP-SM and cordially welcome you to take part in our placement process and jointly contribute to building sustainable societies.

The dynamics of global and national businesses are increasingly being shaped by sustainability concerns. In the last two decades, as societies and businesses have become more aware about environmental degradation and climate change, more emphasis is being put on understanding of associated socio-economic implications and sustainable development, which are vital for businesses and societies alike. Social, economic and environmental sustainability have emerged on the forefront of business strategy and businesses are increasingly aligning their vision so as to be consistent with the global vision as well as vision of the geographies in which they are present. The changed business environment and evolving domestic and global policies and regulations are forcing companies to deal with a wide range of stakeholders that have dynamically evolving, and often conflicting demands from business.

Prof. Archana Shukla
Director, IIM Lucknow

Message from Chairperson, Career Development Services

I proudly present the students of PGP-SM and cordially welcome you to take part in our placement process and jointly contribute to building sustainable societies.

Post Graduate Programme in Sustainable Management (PGP-SM) is a meticulously designed two-year residential MBA programme to sharpen the skills of young professionals in sustainability management. Growing environmental, social and individual level challenges with uncertainties make us all not only aware but sensitive to the continuously innovative requirements to meet the needs of government, corporates and individuals keeping in focus the environmental concerns. PGPSM programme equips its students to think, strategize and perform on this fundamental principle. This is the guiding force to our students to become and remain dependable performers throughout their career paths.

This programme is contemporary and unique in its approach and content. The meticulously designed curriculum of PGPSM places a strong focus on applying theoretical concepts to real-world business scenarios through an applied learning approach especially with summer placement, 6 month long live integrated project

with corporates, and the international immersion module. The hands-on projects provide a holistic understanding of real world at national and international levels.

A formal education helps one in number of ways to excel in one's career. It provides required knowledge and skills to perform on a job. However, a right mindset and a right approach to life with positive attitude in addition to formal education provides an ideal ground to excel in one's career. A rigorous schedule with attitude to serve society at large instills an indefatigable spirit in our students, ensuring they emerge as the best versions of themselves. I take pleasure in introducing the students of PGP-SM and welcoming you as a partner in our journey of building exemplary talent and jointly contribute to building sustainable societies. On behalf of the Career Development Services of IIM Lucknow, I am delighted to welcome you to be a part of the Placement Processes for PGP-SM.

Prof. Anita Goyal

Chairperson - Career Development Services, IIM Lucknow

Message from Chairperson,

PGP – Sustainable Management

I proudly present the students of PGP-SM and cordially welcome you to take part in our placement process and jointly contribute to building sustainable societies.

Business ecosystem has been hugely impacted by several environmental and socio-economic factors in recent years. Global dynamics have driven rapid transformation of business landscape towards sustainable management that encompasses the focus on both profit and business responsibility. These developments have underscored the importance of a management education that specializes in sustainability. IIM Lucknow takes pride in being the frontrunner amongst the IIMs to design a programme that blends the conventional business education with Environmental, Social and Governance (ESG) principles.

PGPSM programme is specially designed to combine the classroom learnings with a 6 month long integrated live industry project and mandatory international immersion programme. The programme aims to integrate the theoretical frameworks and state-of-the-art research in sustainability field with practical business cases.

In the past ten years, since the inception of the programme, we have successfully build a network of sustainability professionals who hold leadership positions in ESG, climate, environmental and sustainability domains in some of the world's most respected organizations. We envision that the rigorous training and extensive experience with real-world projects will equip the students with the knowledge and skills necessary to lead the corporate sector in sustainability space.

The current batch is a dedicated pool of students equipped with diverse skills required for advancing sustainability in business organizations. I am glad to introduce the PGP-SM students and welcome you as a partner in fostering exemplary talent that can lead the transition towards sustainable business and society.

Dr. Dipti Gupta

Chairperson – PGP – Sustainable Management

Why Recruit from PGP-SM ?

Connected Education

With a melange of professionals from backgrounds in Consulting, Energy, Manufacturing, Social, IT, and logistics, having held diverse functional roles such as project managers, designers, consultants, product managers and government officers, PGP-SM encourages variety in thought and perspectives through peer learning. A plethora of group cases, role-plays, and projects facilitate a collaborative learning environment developing leaders with the ability to create synergy by engaging with all stakeholders and earning certifications.

Field Experience

PGP-SM emphasizes practical learning through the international immersion programme and the 2-months summer internship - enhancing industry exposure and building competence and character. A unique feature of the programme, the nine months long integrated project provides hands-on experience by means of direct collaboration with the industry and enables students with a prior work experience of a minimum of two years to seamlessly transition into their careers.

Responsible Leadership

The PGP-SM programme harnesses a finely tuned selection process with a rigorous curriculum designed to develop leaders with multidimensional business mindsets. Leveraging on unique pedagogical methods, every course facilitates a steep learning curve. It gradually moulds professionals poised to create extensive sustainable value in a dynamic business environment.

Learning Outside Classroom

The fully residential programme enables participants to take a holistic approach to augment their learning outside the classroom. Participants are compulsorily devoting 45 Hours outside the classroom in completing industry driven projects spanning 9 months & 1.5 credits.

The diversity and collective experience of the participants are strong enablers that facilitate continuous mutual learning and growth, both as individuals and as team members. The close-knit group of participants ensures that group learning as a process is conducted effectively.

The students participate actively in the institute clubs to pursue their interests and more importantly evolve as individuals with a mind and a heart. Students are the sole organizers of social events, Dandia night, Ganpati Visarjan, Farewell, Nukkad Natak, Skits, Group Dance, Rangoli, Aagman etc. They organize these events with students of other programmes which further expose them & improve group dynamics, team management & organizational skills.

Beyond the Classroom

Course Curriculum

Finance and Accounting

- Accounting Management
- Corporate Finance (Financial Decision Making)
- Project and Environmental Finance
- International Finance for SM (E)
- Corporate Valuation and Restructuring (E)
- Financial Inclusion and Microfinance (E)
- Investment Management (E)
- Management of Financial Services (E)
- Building and Managing Financial Institution (E)

Legal & Public Policy

- Environmental Law and Policy
- Public Policy Processes and Institutions
- Legal Aspects in Management (E)

Human Resources

- Behavior in Organizations
- Business Communication
- Designing Work Organizations
- Human Resource Management
- Strategic Role of HRM in building Organizational Sustainability (E)

Economics

- Microeconomics
- Macroeconomics
- Environmental and Resource Economics

Operations

- Operations Management
- Supply Chain Management
- Healthcare operations Management (E)

Marketing

- Marketing Concepts
- Consumer Behavior
- Services Marketing (E)
- Applied Marketing Strategy (E)
- B2B Marketing (E)
- Sales and Distribution (E)
- Product & Brand Management (E)
- Customer Relationship Management (E)

Sustainability

- Principles of Sustainable Management
- Sustainability: Measurement, Certification and Reporting
- Climate change, Environment and Externalities Trading
- Human Dimensions of Sustainability
- Systems Thinking
- Lifecycle Management
- Stakeholder Management and Corporate Social Responsibility

Energyhive	Enviro Pvt. Ltd.	Envint Global	MOPNG	BPCL
GIZ	Tata Motors	HCL	EY	Altromondo
HDFC	Tata Steel	Koshish Sustainable Solutions	ITC	Kleen Hub
Healthcoco Technologies Pvt. Ltd.	Tata Sustainability	Tata Cleantech	Marico	Momentum India
HPCL	Oren	Centa Pvt. Ltd.	Welspun	Schnieder Electric
IIEC				

International Immersion

The concept of sustainability mandates a 'Global' perspective which includes an in depth understanding of localized risks and challenges as well as a unified global strategy to strive towards holistic development. The international immersion module sensitizes the participants towards the best practices and robust administrative structures which exist in countries like Sweden and Denmark which are considered pioneers of sustainable development. A two-week sojourn in world renowned institutions like Linne University, Maastricht school of management is aimed at enriching the experience of a meaningful immersion.

The rigorous academic schedule is highly complimented with a conscious and deliberate industry interaction with experts from organizations such as IKEA of Sweden, Dong Energy, Rockwool and Volvo, Electrolux which are industry benchmarks for sustainability in their respective sectors. Moreover, the participants actively engage with local municipal bodies and citizen groups who are often instrumental in bringing about behavioral changes in society towards sustainable living. The programme also creates a platform for cultural exchange among participants and the local community.

Leadership Talk Series

At IIM Lucknow- Noida Campus, a series of guest lectures by distinguished business leaders, policy makers, and eminent entrepreneurs takes place throughout the year. It is a student-driven activity that helps to bridge the gap between classroom learning and realworld business problems through experts. Every session enriches the perspective of the

class on emerging trends and contemporary issues of the global business world. This section helps to create a path between the academia and industry, through which young generations forge a connect and later become solution providers for the worldly issues.
